Call for Workshops and tutorials

Workshops and tutorials are an integral part of IISWC-2020. Past workshops and tutorials have covered simulation tools, benchmark suites, benchmarking methodologies for a variety of hardware systems (GPUs, CPUs), new application domains (e.g., machine learning), etc. We hope to have a great set of workshops and tutorials this year too!

We are soliciting proposals for workshops and tutorials to be held before the main conference. This year, all workshops and tutorials will be virtual. Please send workshop and tutorial proposals to **Sreepathi Pai <sree@cs.rochester.edu>**.

In your email, please provide:

1) Session type [Workshop/Tutorial]

2) Session title/name

3) List of organizers

4) A brief abstract of the contents of the session

5) Duration of the session (one day/half day).

6) Potential plan/requirements for virtual organization

IMPORTANT DATES

Tutorial and Workshop Proposals due: Jul 27, 2020
Acceptance Notification: Jul 31, 2020
Presentation Material Deadline: October 20, 2020
Workshop/tutorials date: October 27, 2020
